DETAILED ACTION

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-14,16-21,23-32,34-39 and 41-43 are rejected under 35 U.S.C. 102(b) as being anticipated by Petersen.

Petersen discloses a series of risers coupled about the interior moonpool perimeter of the hull. The risers are laterally inserted into keel guides, and tensioned by winches which allow vertical movement as is known in the art.

Re claim 4, the points face outwardly away from the hull volume, into the moonpool.

Re claim 7, such fails to define over the riser support floats.

Numerous of the method dependent claims recite only structure, and accordingly, such claims will carry no weight.

Re "keel joint", such fails to define any specific structure and/or arrangement so as to define over the buoyant riser support floats.

3. Applicant's arguments filed 4/14/2005 have been fully considered but they are not persuasive.

Applicant argues that Petersen only teaches suspension of the cables on a temporary basis, and as such, fails to anticipate the claim as amended.

The insertion of "enduringly" adds nothing to the claim which in any way could define over the rejection based upon Petersen, as such is a purely relative term, carrying no patentable weight.

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
